ORLANDO FOGG, Town Agent.

SCHOOL REPORT.

The School Board, in presenting this their annual report, are pleased to note that it has been a year of unusual successes in the work of the schools. With the limited salaries we of necessity pay, it is an exceedingly difficult matter to secure a corps of teachers that give entire satisfaction, but, with one exception, this was accomplished last year.

Several of them had enjoyed the advantages of a thorough normal training, and brought to the discharge of their duties unfailing resources and unlimited expedients to interest and instruct the pupils in their care, while those of more modest attainments did most excellent work. We wish every young lady who intends to teach could realize the advantages of a normal training. There are few natural teachers. Successful teaching is a science, which can be best acquired in these training schools. The state of Georgia compels every person desiring to teach to take a thorough course in one of her normal schools, and to pass certain examinations for a certificate to teach even in her Primary schools. The British provinces require the same qualifications. New Hampshire ought not to be behind in any movement for the advancement of our educational interests. It is gratifying to know that several bills, relating to this matter, are now before our legislature.

Some changes have been made in text books. Milne's Series of Arithmetics, Butler's Advanced and Frye's Primary Geographies have been substituted for out-of-date text books. Globes are much needed for the teachers' desks, and additional maps for some of the rooms. The subject of supplementary reading for our schools is receiving much attention from our educators. Reading books are still to be used for drill, but for general reading, sets of the works of the best American and English authors, adapted to the different grades in the schools, are to be introduced. Thus, while the scholar is being taught to read with expression and understandingly, he is acquiring a taste for good literature which will be a pleasure and profit to him in the coming years. Our library committee has manifested much interest in this matter, and has already purchased several sets of books for this purpose, and will add to them from time to time.

Our school buildings are in good repair and will need little done to them the present year.

Some changes have been made in the furnishings of the upper department room at the village. The stove has been brought to the front and new desks put in, which adds much to the comfort and convenience of both scholars and teacher. A similar change will be

made in the adjacent room. It is possible that enlarged seating capacity will have to be added to the room in District No. 2 before the spring term opens.

In conclusion, the committee invites the hearty coöperation of parents and all interested in education to assist them in their efforts to get the greatest possible good from every dollar appropriated for school purposes.

ROLL OF HONOR.

PERFECT RECORD FOR THE YEAR.

James Coughlan, Harry Mathews, Arthur Hill, Edith M. Duttou, Lawrence Mulhall, Herbert Sheldon, Willie L. Johnson, Cora B. Cram, Florence Hayden.
